

BIMAL KUMAR MOHARANA

Cloud & DevOps Engineer | AWS & Linux Systems | Automation & CI/CD

Hyderabad, India | +91 7328094694 | bimalkumarmoharana40@gmail.com | [linkedin.com/in/bimal-kumar-moharana](https://www.linkedin.com/in/bimal-kumar-moharana) | github.com/02Bimal

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in AWS cloud infrastructure (Solutions Architect level), Linux administration, Python automation, and MySQL/PostgreSQL databases. Skilled in designing highly available, secure cloud architectures, implementing CI/CD pipelines, and automating infrastructure with Ansible, Docker, and Kubernetes. Combines MIS Executive experience in data reporting and process management with hands-on AWS, DevOps, and container orchestration projects. Seeking a Cloud, DevOps, or Systems Engineering role.

TECHNICAL SKILLS

- Cloud (AWS):** EC2, S3, IAM, VPC, Lambda, RDS (MySQL/PostgreSQL), CloudFront, Route 53, Auto Scaling, CloudWatch, SNS, SQS, ELB, ALB, ACM, SSM
- DevOps & CI/CD:** Jenkins, GitHub Actions, Docker, Kubernetes, Ansible, AWS CloudFormation (Infrastructure as Code)
- Monitoring & Observability:** Prometheus, Grafana, Loki
- Operating Systems & Scripting:** Linux (Ubuntu, RedHat), Windows Server, Python (boto3, automation scripting), Bash, YAML
- Networking & Security:** VPC Subnets, Security Groups, NACLs, SSL/TLS, AWS WAF, IAM Policies & Roles
- Databases:** MySQL, PostgreSQL
- Version Control & Collaboration:** Git, GitHub

PROJECTS

AWS 3-Tier Architecture Deployment

github.com/02Bimal/aws-3tier-architecture-project

- Designed and deployed a highly available 3-tier architecture (web, application, database) on AWS using a custom VPC with public/private subnets across multiple Availability Zones, with Internet/NAT Gateways, Security Groups, and IAM roles.
- Deployed Node.js and Nginx on EC2 with SSM-based secure access; implemented internal and internet-facing Application Load Balancers with Auto Scaling Groups for fault tolerance and horizontal scalability.
- Integrated private RDS MySQL, S3 storage, HTTPS via ACM, Route 53 DNS routing, and CloudFront CDN to secure and accelerate content delivery.

Full-Stack Application Deployment on Kubernetes

- Deployed a React, Node.js, and MySQL full-stack application on Kubernetes using Docker containers.
- Configured Deployments, Services, and NGINX Ingress for application routing and communication.
- Integrated AWS NLB, Route 53, and ACM for custom domain and HTTPS setup.
- Troubleshoot pod connectivity, MySQL, DNS, Ingress, and service routing issues

WORK EXPERIENCE

MIS Executive — PR & DW Dept., RWS&S Division, Athagarh Feb 2025 – Mar 2026 | Odisha, India

- Prepared and maintained MIS reports and dashboards supporting departmental decision-making and senior management reviews.
- Collected, validated, and consolidated data from multiple sources, ensuring accuracy, consistency, and on-time reporting.

EDUCATION

Master of Computer Applications (MCA) — KIIT Deemed to be University 2023 – 2025 | Bhubaneswar, Odisha
CGPA: 7.4

B.Sc. Computer Science — Utkal University 2019 – 2022 | Cuttack, Odisha
CGPA: 8.1

ADDITIONAL INFORMATION

Languages: English, Hindi, Odia

Strengths & Interests: Quick Learner, AI & Cloud Enthusiast, Team Collaboration, Problem Solving
